- The Chairman asked Sweden and Finland to include Russia in their future events.
- Rimfire: Chairman briefed members on outcome of discussions held with those responsible for the conduct of recent world championship. Members agreed that this was not a matter that we should enter, and that WBSF should take its own path in the development of it own Rimfire World Championship.
- Chairman raised concerns that a number of countries have experienced internal issue. He had taken a firm view that it was not the role of WBSF to enter such issue – this was a

matter for the countries to resolve internally. The members supported this position. This led to divided loyalties in some countries and separate groups wishing to enter teams in our championship.

Stuart (Australia) suggested that if a recognised National Benchrest Organisation cannot field a team then a secondary organisation from that specific Country should be invited.

The Chairman and Vice Chairman asked for time to think the issue through and it was decided to formalise the process by the next meeting.

- The Chairman complimented South Africa for their effort in hosting WBC10.
